WOLFCAFE+

SMARTER, PERSONALIZED, AND SOCIAL CAMPUS ORDERING

MISSION

🍔 **What** → WolfCafe+ is a smart campus food-ordering system that mixes reliable essentials with AI-powered personalization.

🥤 **Why** → Students face long lines, tight budgets, short breaks, and dietary needs that current systems don't address.

🍕 **How** → By combining ordering basics (menu, checkout, staff dashboard) with AI features: budget picks, flavor fusions, ingredient swaps, and social group ordering.

🍩 **Result** → A dining experience that is faster, more inclusive, and more social, built for real student life.

OCTOBER RELEASE
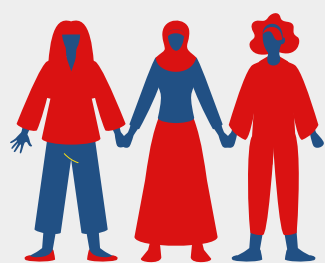

1. Role-Based Permissions – Different views for Admins, Staff, and Customers.
2. Menu & Cart – Browse items, add multiples, and customize orders.
3. Checkout Flow – Automatic tax calculation and tip options.
4. Pickup Notifications – Alerts when orders are ready.

NOVEMBER RELEASE

1. Budget & Time Optimizer – Smart suggestions based on budget and time.
2. Build Your Own – Fun, staff-approved ingredient pairings, alternatives for dislikes, allergies, or restrictions.
3. Social Group Ordering – Split payments and single coordinated pickup.
4. Order History & Insights – Easy reorders and trend data for admins.

Smarter and Social AI-Powered Campus Ordering.

ORDER NOW

Revolutionizing campus dining with AI-powered ordering

UNIQUE SELLING POINT

WolfCafe+ stands out by combining the reliability of a campus food-ordering system with AI-powered personalization. Unlike standard ordering apps, it adapts to student realities — limited budgets, tight schedules, dietary needs, and social dining — making food ordering faster, safer, and more inclusive.
